

Redwood Emergency Communications Network (RECoN)
Sunday Evening LOCAL UNIT Simplex Net Preamble
(MM/DD/YY)

Good evening, this is (*give your call sign*) calling the <Unit Name> portion of the Redwood Emergency Communications Net, the RECoN net. The purpose of this net is to develop and maintain a state of readiness to provide auxiliary communications in the event of an emergency. Since this a directed net, please transmit as requested by the net control station. All licensed amateurs are invited to check into this net. New or visiting stations will be checked in after the roll call.

This net meets weekly on Sunday at approximately 9:10 p.m. on <Unit Simplex Frequency> simplex, except on the first Sunday of the month where it meets with the main RECoN net at 9:00 p.m. on 147.51 MHz simplex. The net control station this evening is (give your call sign) in (name of the city you live in) and my name is (give your first name only).

Emergency traffic always takes precedence on the net. If there is any emergency traffic, please use the phrase “emergency traffic” on your first key-up.

Are there any announcements for the net? Come now.

We will now conduct the roll call.

[illegible]

Are there any late or visiting stations who would like to check in at this time?
Come now.

This concludes the RECoN net for this evening. Thank you all for your participation. This is (give your call sign) closing the net at (give the time). 73's (*pronounced "seven threes"*) – I am clear now.
